

As the Dutch independent Lubricant manufacturer, Eurol® will exhibit on the **Automechanika trade fair from 14th to the 19th of September**

Nijverdal, the Netherlands June 2010 – The international significance of the **automechanika** - Messe Frankfurt expects 160,000 trade visitors - opens up interesting opportunities, especially **on stand D45 in Hall 9.1**. Here Eurol® Lubricants will show her ultra modern line of oils, greases, brake, airco and cooling fluids for the automotive sector and transport sectors.

In addition to these products, which Eurol Lubricants can supply from stock, specific products and quantities – also in private label – are produced in one of the most technically advanced blending facilities in Europe!

On the stand you will meet our export sales managers with decision-making authority, who will be most willing to inform you about the production plant and its products. Eurol B.V. is searching trade partners for further expansion beyond the 50 countries currently covered.
