Eurol Actence 5W-30

Fully synthetic long-life motor oil ACEA C4

Article number E100058 Version 3.1 14/04/2025

Product information

Eurol Actence 5W-30 is a fully synthetic oil for use in gasoline and diesel engines of passenger cars and light commercial vehicles. Additionally, this oil is seamlessly applied in cars with a catalyst, turbo, and direct injection.

Eurol Actence 5W-30 offers extremely good protection during long drain intervals. It is particularly suitable for Euro-4 passenger cars for which ACEA C4 is prescribed, to prevent clogging of the soot filters.

Eurol Actence 5W-30 therefore has a low sulfate ash content as well as low levels of phosphorus and sulfur (so-called "low SAPS" technology).

Eurol Actence 5W-30 not only provides excellent protection against wear but also against rust and corrosion, while special additives keep the parts clean from dirt, sludge, and deposits.

Eurol Actence 5W-30 ensures an extremely quick build-up of a stable lubricating film during cold starts and high thermal stability under heavy operating conditions.
