Eurol TTX Supreme

Semi-synthetic 2-stroke oil for air- and water-cooled 2-stroke engines

Article number E128425 Version 1.0 25/04/2025

Product information

Eurol TTX Supreme is a semi-synthetic oil developed for air and water-cooled two-stroke engines (radiator cooling) with or without a catalyst. It is also ideally suited for engines with an injection system.

Eurol TTX Supreme is composed of base oils that are equipped with durable protection additives. As a result, it provides a strong oil film and perfect lubrication at high temperatures. The combustion engine and scavenging ports are kept free from deposits, wear, and corrosion. The spark plugs remain clean and continue to function properly.

Eurol TTX Supreme easily mixes homogeneously with gasoline to form a so-called pre-mix. It protects against 'seizure' and prevents deposits on the pistons and carbon formation in the exhaust system. This well-thought-out composition guarantees a very long engine lifespan.

Smoke formation is minimized.

Eurol TTX Supreme ensures an easy and quick start at low temperatures and helps the engine to maximize the generated power.

- Mixing ratio: 1:50 (Unless otherwise prescribed).

Performance level

- API TC
- Husqvarna 242
- Husqvarna 346
- ISO-L-EGD
- JASO FD
- TISI

Physical properties

Characteristic	Value/Result	ASTM Standard
Color	Green	
Density at 20°C	0.87 kg/l	ASTM D 4052
Viscosity, kinematic at 40°C	98.6 cSt	ASTM D 445
Viscosity, kinematic at 100°C	12.5 cSt	ASTM D 445
Viscosity Index	120	ASTM D 2270
Flash Point	95 °C	ASTM D 92
Pour point	-39 °C	ASTM D 97
