Eurol Sportbike 10W-50

Fully synthetic motor oil for 4-stroke motorcycles

Article number E100184 Version 4.0 14/04/2025

Product information

Eurol Sportbike 10W-50 Full Synthetic is a fully synthetic engine oil without friction modifiers, developed for 4-stroke motorcycles.

Eurol Sportbike 10W-50 Full Synthetic is based on ester technology which provides exceptional extra protection against wear, deposits, sludge, and oxidation. The oil offers optimized friction characteristics.

This oil can also be used in motorcycle transmissions where an API SF, SG, SH, SJ, or SL oil is required.

Eurol Sportbike 10W-50 Full Synthetic is suitable under all conditions for touring, racing, and cross applications.

Air entrainment and foaming are avoided even under the most severe conditions.

Eurol Sportbike 10W-50 Full Synthetic has low volatility, which minimizes thickening and oil consumption. Due to its well-balanced composition, this oil provides excellent protection for gears and wet clutches.

Despite the extreme loads in gears, the thickener hardly breaks down, ensuring that even at high temperatures, the viscosity remains high enough to guarantee a strong lubricating film.

At low temperatures, Eurol Sportbike 5W-40 and 10W-50 ensure a rapid build-up of the lubricating film, so the engine receives sufficient protection even during cold starts.

Performance level

- API SN
- JASO MA
- JASO MA2

Physical properties

Characteristic	Value/Result	ASTM Standard
Color	brown	
Density at 20°C	0.85 kg/l	ASTM D 4052
Viscosity, kinematic at 40°C	123.0 cSt	ASTM D 445
Viscosity, kinematic at 100°C	18.8 cSt	ASTM D 445
Viscosity Index	172	ASTM D 2270
Viscosity, dynamic (CCS)	5,034 cP	ASTM D 5293
Flash Point	243 °C	ASTM D 92
Pour point	-42 °C	ASTM D 97
