

ADDITIVES

EUROL.COM

RESTORE AND PREVENT

Many years of research by our R & D team in the field of lubrication and cleaning are the solid foundation for our range of high performance additives. Eurol additives meet the latest requirements: proven quality, ease of use, a comprehensive service and product support for both reseller and user.

The usefulness and necessity of using additives are becoming increasingly important. This is due to several reasons. The percentage of bio-components in fuels is increasing, trips are getting shorter, engine technology is becoming more sophisticated, and oil change intervals are becoming longer. This also increases the likelihood of engine pollution, both in older and modern engines. This pollution leads to noticeably poorer engine performance, difficult starts, higher fuel consumption, smoke emissions, and higher exhaust emissions. Our additives effectively work to remedy existing pollution, deposits, adhesion, and leaks. However, their action is also preventative. Adding Eurol additives during regular service intervals ensures cleaning, protection, and prevents problems.

Answer the questions in the additives advisor to find the right product for your question/problem.

Before

After

Before and after treatment with Diesel Injection Cleaner.

Diesel fuel additives

Diesel Injection Cleaner

Suitable for all diesel engines, including common rail injection systems. Reduces flat areas in the RPM range. Engine starts easier and runs more smoothly.

E802492 - 6 x 250 ML

Diesel Clean Direct

Suitable for all diesel engines. Powerful one-shot cleaning of the entire diesel system. Faster engine. Less soot and particulate emissions.

E802495 - 6 x 500 ML

Diesel System Cleaner

Suitable for all diesel engines. Cleans the entire fuel system and keeps it clean. Improved control over the combustion, the engine runs quieter.

E802493 - 6 x 250 ML

EGR Cleaner Spray

Suitable for all vehicles equipped with an EGR system. Dissolves deposits in the EGR (exhaust gas recirculation) valve. Makes the engine more flexible.

E701120 - 12 x 400 ML

Diesel DPF Cleaner Plus

Suitable for all diesel engines equipped with a Diesel Particulate Filter. Unclogs and cleans without disassembly. Restores engine power. Reduces soot emission.

E802498 - 6 x 250 ML

Petrol fuel additives

Petrol Injection Cleaner

Suitable for all petrol engines. Cleans fuel injector and keeps it clean. Reduces flat areas in the RPM range. Engine starts easier and runs more smoothly.

E802511 - 6 x 250 ML

Petrol Fuel Treat

Suitable for all petrol engines. Recommended for hybrid cars. Prevents clogging of the petrol filter as a result of gumming. Prevents irregularly running engine. Improves overall engine performance.

E802515 - 6 x 250 ML

Petrol System Cleaner

Suitable for all petrol engines. Cleans the entire fuel system and keeps it clean. Improved control over the combustion, the engine runs quieter.

E802512 - 6 x 250 ML

Petrol Octane Improver

Suitable for all petrol engines. Increases the octane number of petrol. Improved acceleration.

E802516 - 6 x 250 ML

Radiator additive

Radiator Sealer

Suitable for all radiators. Lubricates water pump. Prevents corrosion. Prevents leaks up to 0.9 mm.

E802317 - 6 x 250 ML

Oil additives

Engine Flush

Suitable for all passenger cars and light commercial vehicles. Cleans the engine. Removes lacquer, varnish and deposits. Reduces soot formation.

E802310 - 6 x 500 ML

ATF Treat Plus

EuroI ATF Treat Plus ensures a lubricating film on all moving parts, which results in less friction of metal on metal such that it offers long term protection.

E802314 - 6 x 500 ML

Engine Oil Treat

Suitable for all passenger cars and light commercial vehicles. Reduces friction. Extends life span of oil. Makes the engine run more flexible. Improves performance.

E802315 - 6 x 250 ML

Transmission Flush

Suitable for all automatic transmissions. Cleans the transmission. Removes scale, lacquer and deposits. Eases gear changing. Prevents and combats oil leakage.

E802311 - 6 x 500 ML

Engine Stop Leak

Suitable for all passenger cars and light commercial vehicles. Revitalises seals. Prevents and combats oil leakage without disassembly.

E802312 - 6 x 250 ML

Transmission Stop Leak

Developed to effectively swell and revitalize seals and o-rings to stop leaks in automatic transmissions.

E802320 - 6 x 250 ML

Visco Oil Plus

Suitable for all passenger cars, light commercial vehicles and lorries. Thickens the engine oil. Prevents engine wear. Reduces blue smoke and oil consumption.

E802313 - 6 x 250 ML

Eurol Specialty additives

Unique to Eurol is the Specialty additives line with SYNGIS Technology. This Specialty 'Additive-S' product line, including both fuel additives and engine oil additives, is developed for professional use. The products are ideally suited for application in gasoline and diesel engines, hydraulic systems, transmissions, and generators in heavily loaded equipment. More information can be found on our website.
