Eurol Bediga 20W-50

Mineral motor oil for mixed fleet

Article number E100045 Version 4.0 14/04/2025

Product information

Eurol Bediga 20W-50 is an engine oil that ensures optimal lubrication for older cars and light commercial vehicles with gasoline, LPG, and diesel engines.

Eurol Bediga 20W-50 can be used in engines equipped with turbocharging, multi-valve technology, and engines equipped with a catalytic converter.

Eurol Bediga 20W-50 offers excellent protection against wear of all engine components, which are also extremely well protected against rust and corrosion. Special dispersants keep soot and other dirt in suspension.

Eurol Bediga 20W-50 also contains special additives that ensure the oil does not thicken due to oxidation, even at high temperatures.

Due to the stable viscosity index improver, the viscosity will decrease very little, so Eurol Bediga 20W-50 continues to build a stable lubricating film between moving parts even after extended periods.
